

Yannick Le Roux

Junior Web Developer - React

Originated from **France**, I moved to the US in 2014. In May 2017, after 10 years of working in the music industry, I decided to switch career and study to become a **web developer**.

Self taught and always excited to learn, I am following courses on a daily basis and apply what I have learned to **real life**

projects: <https://github.com/YannickLeRoux>

I am really looking forward to working as a **junior developer** and join a team in which I could use my passion for programming efficiently.

For further information, please visit my portfolio built with **React JS** and **Django**: <https://yannickleroux.com>

Phone: (442) 273-6238

Address: San Diego, CA

Website: <https://yannickleroux.com>

Email: yannick.leroux971@gmail.com
